

# Learn how to use Campus Collab step by step

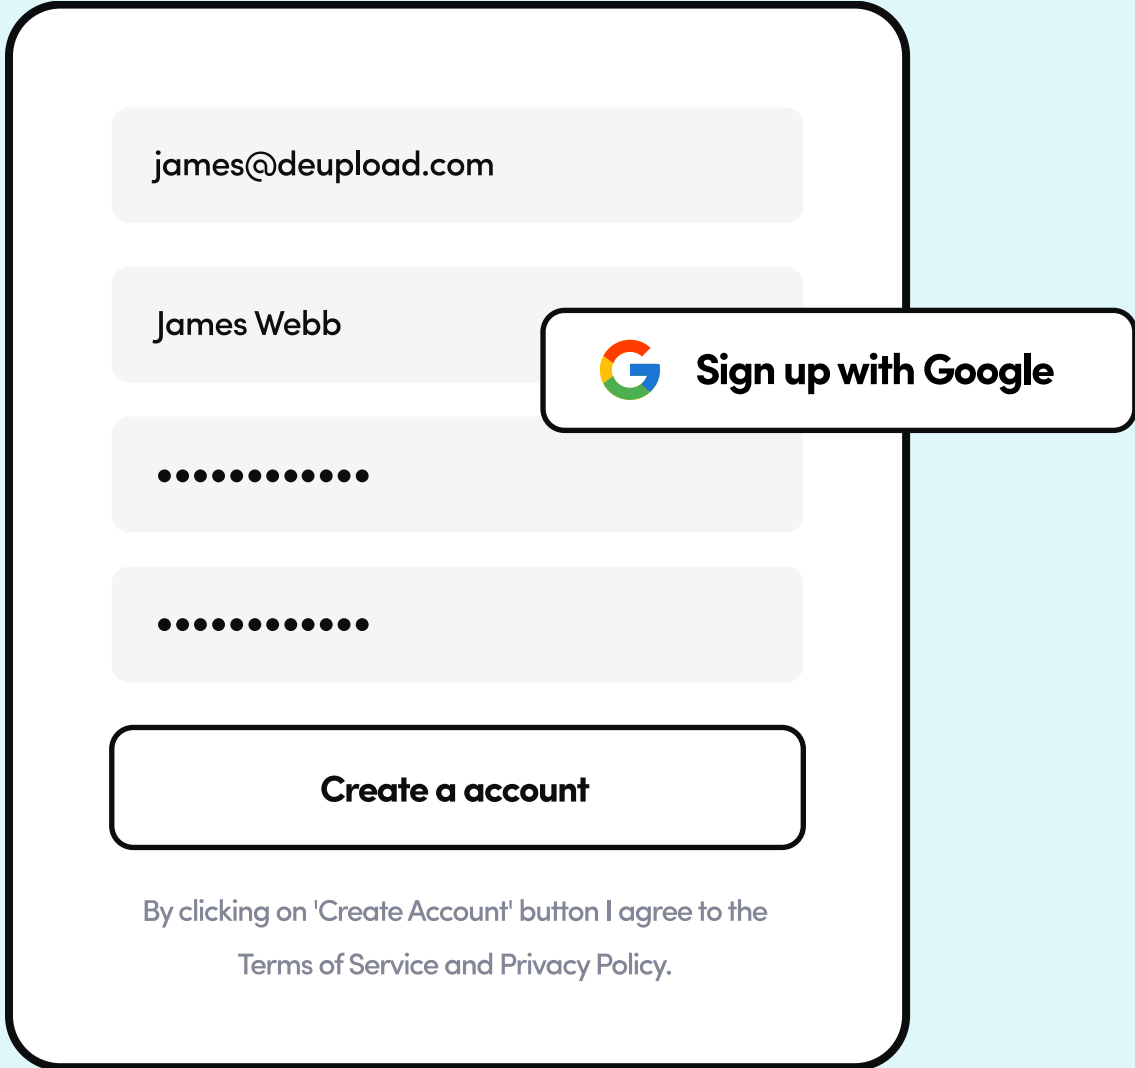

Learn how to create, store, and share files on decentralized storage technologies with the frictionless experience you expect in a modern workflow.

## 1. Create an account

When you create a CampusCollab Account, we ask for some personal info. By providing accurate info, you can help keep your account secure and make our services more useful.

1. Click Create Account button on header.
2. Enter your email address.
3. In the "Full name" field, enter your name.
4. Enter and confirm your password.
5. Click Create Account.

## 2. Upload files from desktop

You can upload, view, share, and edit files with CampusCollab. When you upload a file to CampusCollab, it should be in supported format (PDF, DOCX) and should only be uploaded to the respective course

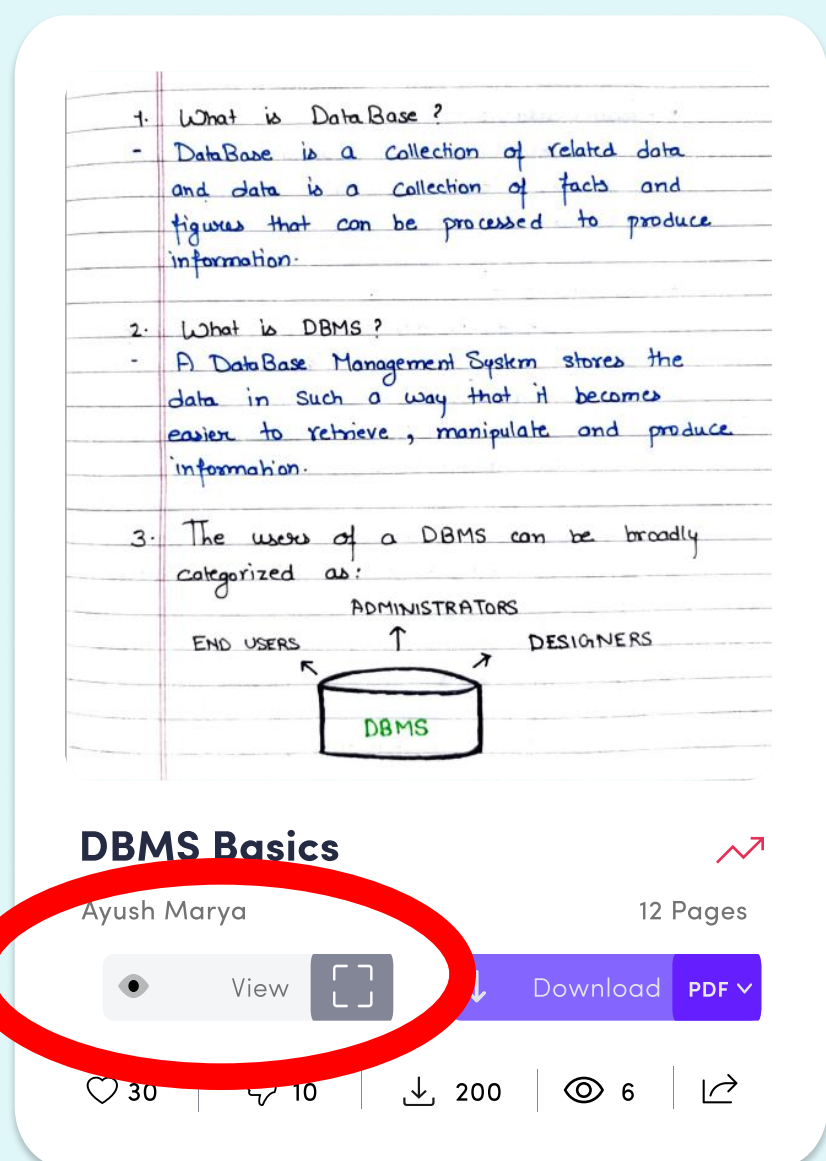

1. Go to the Home Page.
2. Select a University, Semester, Course, and Material Type (Study, Handwritten, Exam QP, etc...)
3. At the top left, click Upload and then Upload Files.
4. Choose the file you want to upload.

## 3. View Course Materials

All data stored using CampusCollab is made available for viewing via the CampusCollab Webiste. To view any material, Follow the below instructions:

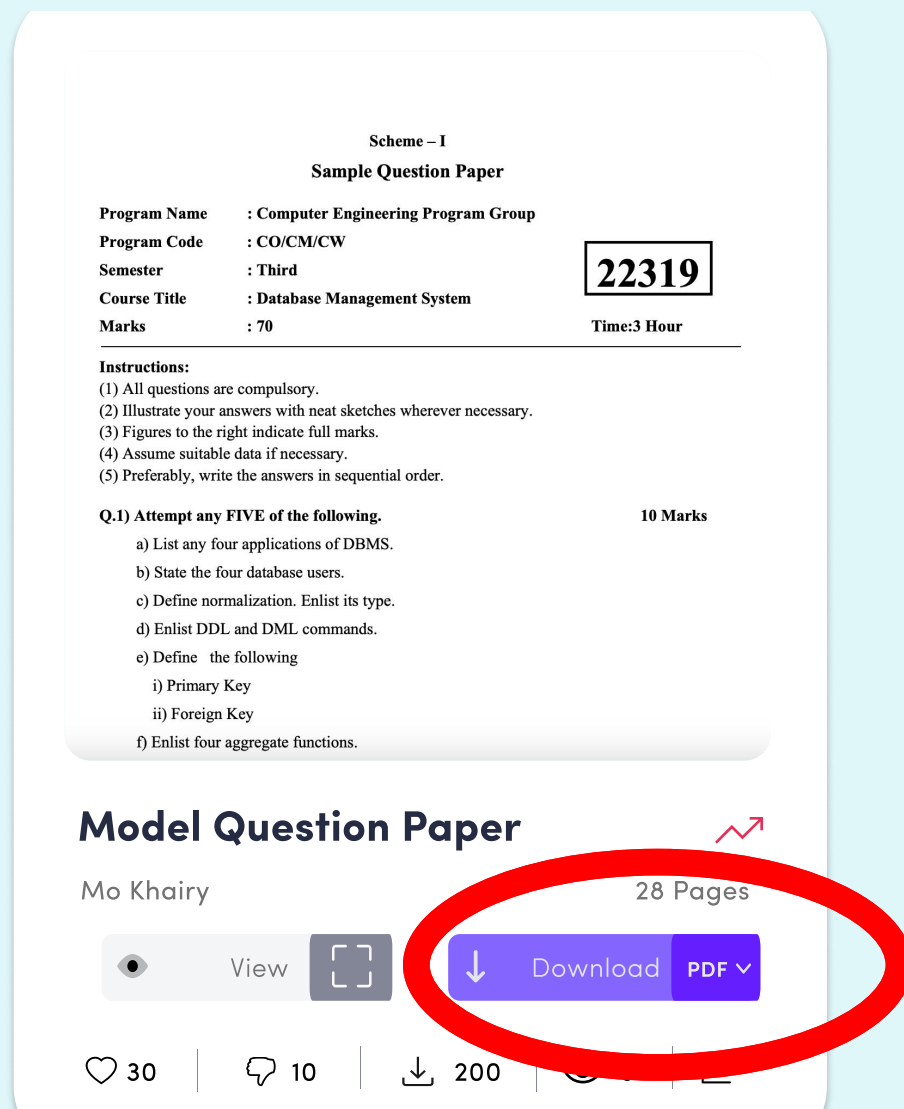

1. Go to the Home Page.
2. Select a University, Semester, Course, and Material Type (Study, Handwritten, Exam QP, etc...)
3. In the search results, select and filter your required material document.
4. click on view icon to view the website in a interactive document viewer.

## 4. Download Course Materials

All data stored using CampusCollab is made available for retrieval via the CampusCollab Webiste. To download any material, Follow the below instructions:

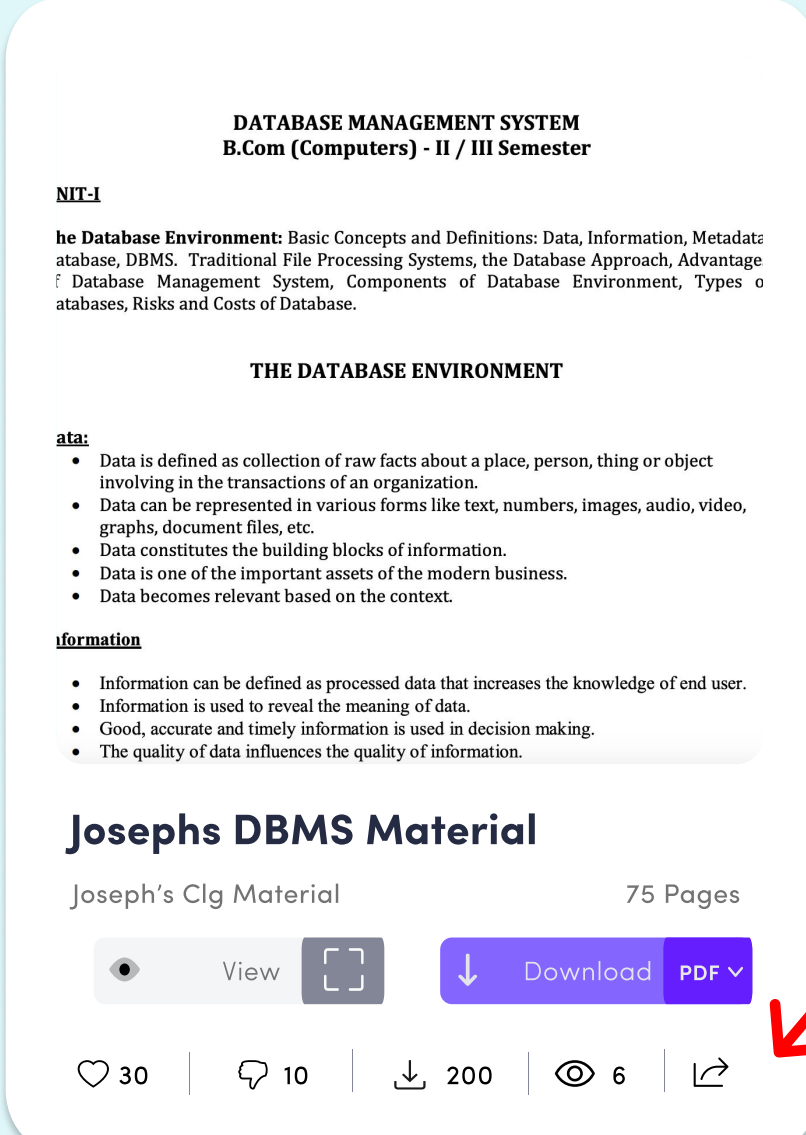

1. Go to the Home Page.
2. Select a University, Semester, Course, and Material Type (Study, Handwritten, Exam QP, etc...)
3. In the search results, select and filter your required material document.
4. click on download icon to start downloading.

## 5. Share files to friends

You can also share your files to your friends using a simple link. Click on share button and it will generate a link for others to open

1. Hover over the file or folder you'd like to share.
2. Click the share icon at menu.
3. Click generate link for your file.

## Ready to get started?

Storing data to others can be helpful for people in need. CampusCollab removes that complexity. Upload data in seconds using the tools you already know and love.
